

The **California Proposition 65 – Safe Drinking Water and Toxic Enforcement Act** requires manufacturers to provide a clear and reasonable warning about potential exposure to Office of Environmental Health Hazard Assessment (OEHHA) listed substances from their products' intended or foreseeable use.

Semi-finished products and/or machined parts thereof (products) manufactured by **POLYTRON Kunststofftechnik GmbH & Co. KG** (POLYTRON) are not for direct use by consumers. OEHHA listed substances are neither intentionally introduced during the production of the raw materials nor during the manufacture of the above-mentioned products, with the exception as mentioned below. POLYTRON products may contain trace amounts of OEHHA listed substances bound within the polymer matrix. Any foreseeable exposure of listed substances to consumers, due to machining and final application of the products, and subsequent warning label requirements under California Proposition 65 remains in the responsibility of the user putting the products into the intended use. Since the presence of the above-mentioned substances, with the exception as mentioned below, cannot reasonably be expected, POLYTRON does not systematically check their absence in its products by testing.

Products made of the following listed materials may contain trace amounts of OEHHA listed substances bound within the polymer matrix and can expose the user to the mentioned substances:

Material	DIN / ISO	WARNING
Acetron® C black	POM C	Products made of this material can expose you to chemicals including Formaldehyde (CAS No. 50-00-0), Carbon Black (CAS No. 1333-86-4) and Hydrotreated Heavy Paraffinic Distillates (Petroleum) (CAS No.64742-54-7), which are known to the State of California to cause cancer.
Acetron® C blue	POM C	Products made of this material can expose you to chemicals including Formaldehyde (CAS No. 50-00-0), which is known to the State of California to cause cancer.
Acetron® C ELS black	POM C-C	Products made of this material can expose you to chemicals including Formaldehyde (CAS No. 50-00-0) and Carbon Black (CAS No. 1333-86-4), which are known to the State of California to cause cancer, and Methanol (CAS No. 67-56-1), which is known to the State of California to cause birth defects or other reproductive harm.
Acetron® C natural	POM C	Products made of this material can expose you to chemicals including Formaldehyde (CAS No. 50-00-0), which is known to the State of California to cause cancer.
Acetron® H black	POM H	Products made of this material can expose you to chemicals including Formaldehyde (CAS No. 50-00-0) and Carbon Black (CAS No. 1333-86-4), which are known to the State of California to cause cancer, and Methanol (CAS No. 67-56-1), which is known to the State of California to cause birth defects or other reproductive harm.
Acetron® H natural	POM H	Products made of this material can expose you to chemicals including Formaldehyde (CAS No. 50-00-0), which is known to the State of California to cause cancer, and Methanol (CAS No. 67-56-1), which is known to the State of California to cause birth defects or other reproductive harm.
Fluorosint® 207	PTFE-MI FG	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 9002-84-0) and Crystalline Silica (CAS No. 14808-60-7), which are known to the State of California to cause cancer.
Fluorosint® 500	PTFE-MI	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 9002-84-0) and Crystalline Silica (CAS No. 14808-60-7), which are known to the State of California to cause cancer, Methanol (CAS No. 67-56-1) and Toluene (CAS No. 108-88-3), which are known to the State of California to cause birth defects or other reproductive harm, and Benzene (CAS No. 71-43-2) and Pentadecafluorooctanoic Acid (PFOA) (CAS No. 335-67-1), which are known to the State of California to cause cancer and birth defects or other reproductive harm. Note: Products made of this material are not made with PFOA nor is PFOA intentionally present in the products; however, it is possible that PFOA may be present as an impurity at background (environmental) levels.
Fluorosint® HPV	PTFE-MI mod	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 9002-84-0) and Crystalline Silica (CAS No. 14808-60-7), which are known to the State of California to cause cancer.
Fluorosint® MT-01	PTFE-CF	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 9002-84-0) and Carbon Black (CAS No. 1333-86-4) which are known to the State of California to cause cancer.
Ketron®/Victrex® PEEK-CLASSIX	PEEK	Products made of this material can expose you to chemicals including Titanium Dioxide (CAS No. 13463-67-7), which is known to the State of California to cause cancer.
Nylatron® 66 Nylatron® 101 black	PA 66	Products made of this material can expose you to chemicals including Carbon Black (CAS No. 1333-86-4), which is known to the State of California to cause cancer.

Material	DIN / ISO	WARNING
Nylatron® 66-GF30 black	PA 66-GF30	Products made of this material can expose you to chemicals including Glass Fibers (CAS No. 65997-17-3) and Carbon Black (CAS No. 1333-86-4), which is known to the State of California to cause cancer.
Nylatron® 703 XL	PA 6 C-PE10	Products made of this material can expose you to chemicals including 2-Amino-4-Chlorophenol (CAS No. 95-85-2), which is known to the State of California to cause cancer, and Methanol (CAS No. 67-56-1) and Ethylene Glycol (CAS No. 107-21-1), which are known to the State of California to cause birth defects or other reproductive harm.
Nylatron® M blue	PA 6 C	Products made of this material can expose you to chemicals including Methanol (CAS No. 67-56-1), which is known to the State of California to cause birth defects or other reproductive harm.
Nylatron® M OL	PA 6 C-OL	Products made of this material can expose you to chemicals including and trace levels of Antimony (CAS No. 7440-36-0), Methanol (CAS No. 67-56-1) and trace levels of Mercury (CAS No. 7439-97-6), which are known to the State of California to cause birth defects or other reproductive harm, and trace levels of Nickel (CAS No. 7440-02-0), Chromium (CAS No. 7440-47-3), Cadmium (CAS No. 7440-43-9), Lead (CAS No. 7439-92-1), and Arsenic (CAS No. 7440-38-2), which are known to the State of California to cause cancer and birth defects or other reproductive harm.
Nylatron® M Nylatron® MC 907 natural	PA 6 C	Products made of this material can expose you to chemicals including Methanol (CAS No. 67-56-1), which is known to the State of California to cause birth defects or other reproductive harm.
Nylatron® MC 901	PA 6 C-HI	Products made of this material can expose you to chemicals including 1,4-Dioxane (CAS No. 123-91-1), which is known to the State of California to cause cancer, Methanol (CAS No. 67-56-1) and N-Methylpyrrolidone (CAS No. 872-50-4), which are known to the State of California to cause birth defects or other reproductive harm, and Ethylene Oxide (CAS No. 75-21-8), which is known to the State of California to cause cancer and birth defects or other reproductive harm.
Nylatron® MC S	PA 6 C-HS	Products made of this material can expose you to chemicals including Methanol (CAS No. 67-56-1), which is known to the State of California to cause birth defects or other reproductive harm.
Nylatron® NSM	PA 6 C-PE	Products made of this material can expose you to chemicals including Aniline (CAS No. 62-53-3), which is known to the State of California to cause cancer, and Methanol (CAS No. 67-56-1) and N-Methylpyrrolidone (CAS No. 872-50-4), which are known to the State of California to cause birth defects or other reproductive harm.
POLYTRON PPE 1000 black	PPE	Products made of this material can expose you to Carbon Black (CAS No. 1333-86-4) and Styrene (CAS No. 100-42-5), which are known to the State of California to cause cancer, and Toluene (CAS No. 108-88-3), which is known to the State of California to cause birth defects or other reproductive harm.
POLYTRON PPSU 1000 black	PPSU	Products made of this material can expose you to chemicals including Carbon Black (CAS No. 1333-86-4), which is known to the State of California to cause cancer.
POLYTRON PSU 1000	PSU	Products made of this material can expose you to chemicals including Bisphenol A (CAS No. 80-05-7), which is known to the State of California to cause birth defects or other reproductive harm.
Semitron® ESD 225	POM C ESD	Products made of this material can expose you to chemicals including Titanium Dioxide PW6 (13463-67-7) and Carbon Black (1333-86-4), which are known to the State of California to cause cancer.
Semitron® ESD 410	PEI ESD	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 116-14-3) and Carbon Black (CAS No. 1333-86-4), which are known to the State of California to cause cancer, and Bisphenol A (CAS No. 80-05-7), which is known to the State of California to cause birth defects or other reproductive harm.
Semitron® ESD 480	PEEK ESD	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 116-14-3) and Carbon Black (CAS No. 1333-86-4), which are known to the State of California to cause cancer.
Semitron® ESD 500HR	PTFE-MI ESD	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 116-14-3) and Crystalline Silica (CAS No. 14808-60-7), which are known to the State of California to cause cancer, Methanol (CAS No. 67-56-1), which is known to the State of California to cause birth defects or other reproductive harm, and Pentadecafluorooctanoic Acid (PFOA) (CAS No. 335-67-1), which is known to the State of California to cause cancer and birth defects or other reproductive harm. Note: Products made of this material is not made with PFOA nor is PFOA intentionally present in the product; however, it is possible that PFOA may be present as an impurity at background (environmental) levels.
Semitron® ESD 520HR	PAI-CF ESD	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 116-14-3) and 4,4'-Diaminodiphenyl Ether (CAS No. 101-80-4), which are known to the State of California to cause cancer, and N,N-Dimethylacetamide (CAS No. 127-19-5), which is known to the State of California to cause cancer and birth defects or other reproductive harm.

Material	DIN / ISO	WARNING
Techtron® 1000	PPS	Products made of this material can expose you to chemicals including Dichlorobenzene (CAS No. 106-46-7), which is known to the State of California to cause cancer, and n-Methylpyrrolidone (CAS No. 872-50-4), which is known to the State of California to cause birth defects or other reproductive harm.
Techtron® BG	PPS-TF/CF/CS	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 116-14-3) and Crystalline Silica (CAS No. 14808-60-7), which are known to the State of California to cause cancer.
Techtron® GF40 black	PPS-GF40	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 116-14-3) and Carbon Black (CAS No. 1333-86-4), which is known to the State of California to cause cancer.
Techtron® HPV blue	PPS-GF/TF	Products made of this material can expose you to chemicals including Carbon Black (CAS No. 1333-86-4) and Tetrafluoroethylene (CAS No. 116-14-3), which are known to the State of California to cause cancer.
Teratron black	PET	Products made of this material can expose you to chemicals including Acetaldehyde (CAS No. 75-07-0) and Carbon Black (CAS No. 1333-86-4), which are known to the State of California to cause cancer, and Ethylene Glycol (CAS No. 107-21-1), which is known to the State of California to cause birth defects or other reproductive harm.
Teratron HPV	PET-TF	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 116-14-3), Titanium Dioxide (CAS No. 13463-67-7), and Acetaldehyde (CAS No. 75-07-0), which are known to the State of California to cause cancer, and Ethylene Glycol (CAS No. 107-21-1), which is known to the State of California to cause birth defects or other reproductive harm.
Teratron natural	PET	Products made of this material can expose you to chemicals including Acetaldehyde (CAS No. 75-07-0), which is known to the State of California to cause cancer, and Ethylene Glycol (CAS No. 107-21-1), which is known to the State of California to cause birth defects or other reproductive harm.
Torlon® 4203	PAI	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 116-14-3) and Titanium Dioxide (CAS No. 13463-67-7), which are known to the State of California to cause cancer.
Torlon® 4275	PAI-CS20	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 116-14-3), Crystalline Silica (CAS No. 14808-60-7), and 4,4'-Diaminodiphenyl Ether (CAS No. 101-80-4), which are known to the State of California to cause cancer, and N,N-Dimethylacetamide (CAS No. 107-19-5), which is known to the State of California to cause cancer and birth defects or other reproductive harm.
Torlon® 4301	PAI-CS12	Products made of this material can expose you to chemicals including Crystalline Silica (CAS No. 14808-60-7), which is known to the State of California to cause cancer.
Torlon® 5030	PAI-GF30	Products made of this material can expose you to chemicals including Tetrafluoroethylene (CAS No. 116-14-3), which is known to the State of California to cause cancer.
Ultem® 1000 black	PEI	Products made of this material can expose you to chemicals including Carbon Black (CAS No. 1333-86-4) and Bisphenol-A (CAS No. 80-05-7).
Ultem® 1000 natural	PEI	Products made of this material can expose you to chemicals including Bisphenol A (CAS No. 80-05-7), which is known to the State of California to cause cancer.
Ultem® 2300 natural	PEI-GF30	Products made of this material can expose you to chemicals including Glass Fibers (CAS No. 65997-17-3), which is known to the State of California to cause cancer, and Bisphenol A (CAS No. 80-05-7), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® 1000 natural	PE-UHMW	Products made of this material can expose you to chemicals including n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® 1000 AST	PE-UHMW C	Products made of this material can expose you to chemicals including Carbon Black (CAS No. 1333-86-4), which is known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® 1000 ASTL	PE-UHMW TG1 C	Products made of this material can expose you to chemicals including Carbon Black (CAS No. 1333-86-4), which is known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® 1000 black	PE-UHMW	Products made of this material can expose you to chemicals including Carbon Black (CAS No. 1333-86-4), which is known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® 1000 blue	PE-UHMW	Products made of this material can expose you to chemicals including Titanium Dioxide (CAS No. 13463-67-7), which is known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.

Material	DIN / ISO	WARNING
UltraWear® 1000 green	PE-UHMW	Products made of this material can expose you to chemicals including Titanium Dioxide (CAS No. 13463-67-7), which is known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® 500 black	PE-HMW	Products made of this material can expose you to chemicals including Carbon Black (CAS No. 1333-86-4), which is known to the State of California to cause cancer, n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® 500 blue	PE-HMW	Products made of this material can expose you to chemicals including Titanium Dioxide (CAS No. 13463-67-7), which is known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® 500 green	PE-HMW	Products made of this material can expose you to chemicals including Titanium Dioxide (CAS No. 13463-67-7), which is known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® 500 natural	PE-HMW	Products made of this material can expose you to chemicals including n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® CS	PE-UHMW C FG	Products made of this material can expose you to chemicals including Carbon Black (CAS No. 1333-86-4), which is known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® HD UltraWear® 100/ 200/300 black	PE-HD	Products made of this material can expose you to chemicals including Silica (CAS No. 14808-60-7), trace levels of 1,4-Dioxane (CAS No. 123-91-1) and Carbon Black (CAS No. 1333-86-4), which are known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3) and Toluene (CAS No. 108-88-3), which are known to the State of California to cause birth defects or other reproductive harm.
UltraWear® HD UltraWear® 100/ 200/300 natural	PE-HD	Products made of this material can expose you to chemicals including Silica (CAS No. 14808-60-7) and trace levels of 1,4-Dioxane (CAS No. 123-91-1), which are known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3) and Toluene (CAS No. 108-88-3), which are known to the State of California to cause birth defects or other reproductive harm.
UltraWear® HPV	PE-UHMW SD	Products made of this material can expose you to chemicals including Titanium Dioxide (CAS No. 13463-67-7), which is known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® P natural/white/grey	PP-H	Products made of this material can expose you to chemicals including Ethylene Oxide (CAS No. 75-21-8), Crystalline Silica (CAS No. 14808-60-7), and 1,4-Dioxane (CAS No. 123-91-1), which are known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
UltraWear® VMX	PE-UHMW ID	Products made of this material can expose you to chemicals including n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
Victrex® PEEK KetaSpire® PEEK black	PEEK	Products made of this material can expose you to chemicals including Carbon Black (CAS No. 1333-86-4), which is known to the State of California to cause cancer.
X-tendedWear DS	PE-UHMW TG1 DS	Products made of this material can expose you to chemicals including Titanium Dioxide (CAS No. 13463-67-7), which is known to the State of California to cause cancer, and n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm.
X-tendedWear XL	PE-UHMW TG1 GB8	Products made of this material can expose you to chemicals including Titanium Dioxide (CAS No. 13463-67-7) and Arsenic (CAS No. 7440-38-2), which is known to the State of California to cause cancer, n-Hexane (CAS No. 110-54-3), which is known to the State of California to cause birth defects or other reproductive harm, and Lead (CAS No. 7439-92-1), which is known to the state of California to cause cancer and birth defects or other reproductive harm.
